

IN THE SPECIFICATION:

Kindly amend the Specification as follows:

Rewrite the paragraph at page 6, lines 31-35 to read as follows:

a The epoxy resin of the first component of the composition includes an epoxy resin in an amount within the range of about 5 to about 85 weight percent, such as about 25 to about 55 weight percent, based on the total weight of the first component.

Rewrite the paragraph at page 23, lines 1-6 to read as follows:

Q2 Where applicable, the two components of the composition may be transferred in appropriate volume ratio to a double barrel syringe or cartridge having 2 parallel barrels made of non-reactive plastic. The syringe or cartridge is equipped with a mixing chamber disposed in a location intermediate to the cartridges and the dispense nozzle.

IN THE CLAIMS:

Kindly amend Claims 1, 12, and 22 to read as follows:

Q3 1. (Amended) A two-part, room-temperature curable composition having high flash point and low odor, comprising:

(a) a first component, comprising:
